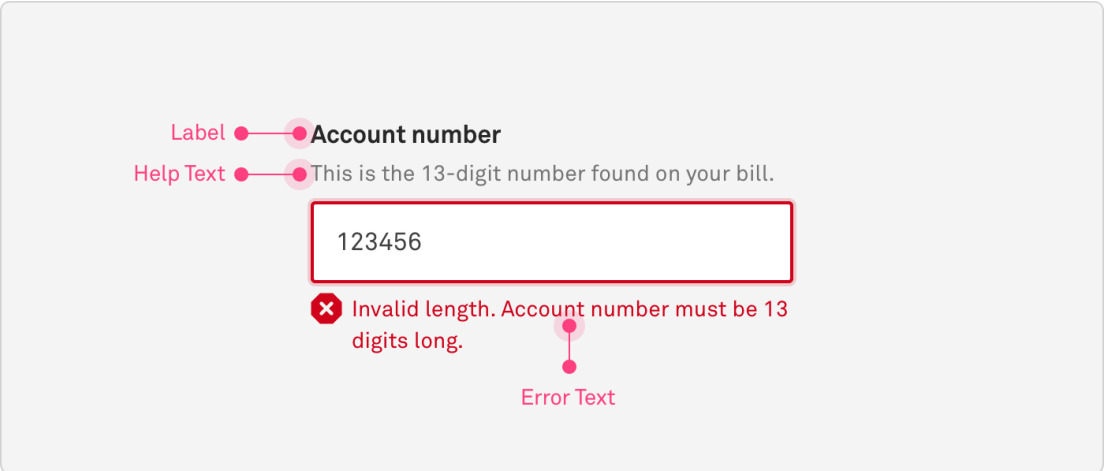
Text Input Helper - Copy

Created by Genevieve Wang, last modified on 03 Feb 2021



The table below lists out the Text Field copy that have been created in collaboration with the Content team for Able Text Input Helpers.

Note: each Text Input Helper provides default Label, Help Text and Error Text. Teams will be able to override these if needed.

Optional Input	Mobile number (optional)	*<label>* (optional)	-	-

Read more about our rationale on indicating required and optional text fields.

Can't find what you're looking for?

If your team requires additional error rules or an input type that haven't been built yet, or need to override existing copies to suit different requirements:

1. Refer to this table of copies for additional error states in P2O flows (or reach out to @Jaedene Hudson).
2. If your feature requires custom copy, see our Content Guidelines on writing copy for text fields.

New or revised copies should be reviewed as per the standard process with the Content team.
